Introduction to PTAC

Facilitating Innovation, Collaborative Research and Technology Development, Demonstration and Deployment for a Responsible Canadian Hydrocarbon Energy Industry

Sept 11, 2007

Denis Gaudet P.Eng.

Summary

- } Mission, Objectives and Role**
- } How PTAC Works**
- } Services**
- } CBM Joint Industry Project**
- } Thank You**
- } Contact Us**

Mission, Objectives and Role

- }** To facilitate innovation, collaborative research and technology development, demonstration and deployment for a responsible Canadian hydrocarbon energy industry
- }** To improve the environmental, safety, and financial performance of the industry
- }** To facilitate the creation of value through innovation
- }** PTAC is a not-for-profit association with a volunteer board comprised of representatives from producers, technology suppliers, researchers, government, inventors and individuals
- }** PTAC is a neutral facilitator or matchmaker for oil and gas innovation, technology transfer and collaborative R&D

How PTAC Works

- } Inventors or researchers may propose projects for funding**
- } Service/supply firms may request help in testing or commercializing their ideas**
- } Producers may invite help in solving problems or sharing on new initiatives**
- } Technical Steering Committees may invite proposals for R&D on specific challenges**
- } Technical Steering Committees, project committees or working groups may provide project direction**
- } Members assist in planning projects, events and workshops**
- } Stakeholders provide input at events and workshops on R&D priorities**

Services

- } Problem and Opportunity Definition Workshops**
 - } Request for Proposals (RFPs)**
 - } Forums and Conferences***
 - } Technology Information Sessions***
 - } Launch Projects**
 - } Web site – www.ptac.org**
 - } Newsletter**
 - } Knowledge Centre and Services**
- * Presentations require an industry or government co-sponsor to confirm content is worthy of consideration by the industry**

New CBM Joint Industry Project

- } PTAC approached to facilitate the start up of the meeting today for the proposed CBM Best Technology**
- } Joint Industry Project**
- } Number of presentations this morning**
- } JIP Format, Tasks and Budget**
- } Draft Contract for funding participants**
- } Three additional technical presentations;**
 - Dave Quirk, Pinnacle Technologies**
 - Dewitt Dees, Veolia Water Solutions & Technologies**
 - Robert Gardes, Gardes Energy**

Thank You

} I would like to take this opportunity to thank the following sponsors:

- Energen Resources
- Nexen Inc.

Contact us

We are located at:

**Chevron Plaza, Suite 400, 500 Fifth Avenue S.W.
Calgary, Alberta T2P 3L5**
