Innovative Drilling Technologies and Best Practices Forum October 18, 2005

Evaluation and Feedback Form

Evaluation forms collected: 11

1. a) Did you find the information at this forum valuable? 91% Yes 9% No

b) Please comment:

- Good variety of topics – wide spectrum
- Overview, few of technologies
- Valuable data from leveling study, BC program was informative
- Overview of BC royalty schemes, technology presentations were informative
- I knew much of the ideas to extend the drilling season, I would have liked to hear more about case studies in extending access, both good & bad
- Summary of the papers
- Yes, good work on the Level Best Project
- Matting topic (self served advertising. One side!)
- No comments (x3)

2. Why did you attend?

- Load leveling has important applications for Artic Developments
- See new trends/information
- Find out industry perspective on leveling
- To get a better understanding of the findings from the load leveling report
- I wanted to hear about experiences of extending the drilling season
- As part of the Steering Committee
- To learn more about the load leveling efforts underway
- Interested in load leveling study & matting topics
- Interested in Oilfield Rental Industry – good leveling is important
- Topic was of interest to my company and its ability to supply product to the industry if load leveling comes into place
- Trying to answer some questions that have been asked over & over

3.

Please rate (√) the following:

	Poor	Satisfactory	Good	Very Good	No Comment
Forum Timing	-	36%	46%		18%
Presentation Content	9%	36%	27%	9%	18%
Presentation Topics	9%	36%	27%	9%	18%
Forum Speakers	9%	27%	46%		18%

4. Which powerpoint and poster presentations did you find most valuable?

- Rig mats - didn't know realize the use was that prevalent
- No comments
- Slide quality was poor, could have been a lot better (too small graphics)
- Heliportable video
- The matting discussion, and surprisingly, the government discussion
- Mike/Bill ----- ppt
- BC oil & gas development strategy
- Deep blue & BC MOE
- PTAC load leveling
- BC oil & gas policy
- The key note presentation

5. What topics or presentations do you suggest be covered at future forums and/or by whom?

Topic/Presentation	Leader/Speaker
• Alternative airborne support	
• No comments (x 7)	
• Leveling phase two, three what now, how do we do?	
• BC royalty program review - \$, benefits, heliportable operations – case studies, performance	
• Government incentives	• Alberta Government

6. Would you be interested in attending a similar PTAC event in the future? **91% Yes 0% No 9% NC**

7. Are you a producer interested in planning the next forum? **91% Yes 0% No 9% NC**

8. Are you interested in presenting at a future forum or conference? **36% Yes 55% No 9% NC**

9. How did you hear about the forum?

55% PTAC Email 0% PTAC Website 9% Phone Message 27% Forum Sponsor
 0% News Agency 9% Other – PTAC member 9% No Comment

10. General comments/suggestions:

- I will show up later – I showed up at 11 am – could have waited till 12:15 pm
- Better slides, especially at start
- Poorly attended! Fear that nothing will come of study
- Good hand out materials. Very good theater for presentation/forum. Knowledgeable presenters, minimal salesmanship!
- Overall, I would have expected less sales presentations and more experiences of companies. While the Road Badger talk was interesting & dealt with construction, it didn't really address load leveling
- It is important that the 'technology' presentations are scrutinized to ensure that they do not come across as a sales pitch, as they do present valid technology consideration
- IT problems with power point presentations
- The attendance fee of \$300 + Cdn. seems high for a cold lunch and a not-for-profit organization
- No comments (x2)
- Good forum
