

Pipeline Abandonment Steering Committee – Summary Meeting Minutes

October 25, 2013

1.0 Welcome and Introductions

2.0 Final Decision on Project Proponent for “RFP 003 - Frost Heave Effects on Pipeline Exposure Rates”

- The Steering Committee has ranked each of the final three RFP’s, and has awarded Stantec Consulting with the project. A milestone list must be delivered at the next committee meeting, as well as a table of contents for the final report.
 - The next committee meeting will serve as the kickoff for Stantec’s work and will give both Stantec and the Steering Committee an opportunity to address any questions or concerns they may have.
- Between now and the next committee meeting, PTAC to tell Stantec that they may begin some preparatory work for the project itself.

Moved by Greg Northey and seconded by Alan Pentney to award Stantec with the “Frost Heave Effects on Pipeline Exposure Rates” project. Carried.

3.0 Adjourn

Moved by Greg Hill and Rob Power to adjourn the October 25, 2013 Pipeline Abandonment Research Steering Committee Meeting. Adjourned
